01. What is GBV?
02. Key terms
03. European Legal aspects
04. Discussion

## CONTENTS

# What is GBV?

Gender-based violence (GBV) is primarily a breach of human rights and a significant global health concern. Its roots lie in power disparities and discriminatory practices based on gender.

GBV transcends socioeconomic status, cultural norms, religious beliefs, age, and sexual orientation. Manifestations of GBV include physical, emotional/psychological, and sexual abuse, as well as deprivation of resources or access to essential services.

# Key terms

1. Abuser
2. Affected individuals
3. Report
4. Preventing Sexual and Intimate Partner Violence
5. Sexual Harassment

# European Legal aspects

The European Union (EU) is dedicated to combating gender-based violence (GBV) and has formulated legal stances and strategies to address this issue with effectiveness.

# European Legal frameworks:

**ISTANBUL CONVENTION**

**DIRECTIVE 2012/29/EU**

**INSTRUMENTS FOR THE MUTUAL RECOGNITION OF PROTECTION MEASURES**

# Discussion!

Points to consider:

- How can we enhance access to justice for marginalized communities affected by GBV?
- How can we address the systemic factors that perpetuate GBV while promoting accountability?

# Thanks!
